

Every Household Shall Have This

FIRE-Proof Document Case 3.0

New & Improved

Protect critical documents against disaster and give the gift of peace of mind with this document holder.

Make sure your valuable documents are shielded against unpredictable disasters with this fire-proof document holder. Made of dual layered non-itchy silicone coated fiberglass and lined with aluminum foil, it is resistant up to 1000°F, and stitched with fire resistant Kevlar thread. It is the perfect solution for adding an extra layer of security to protect valuable documents against fire, water, dirt, etc. The top flap is secured with 2" hook & loop fastener that is designed to stay closed during the most extreme conditions.

Great for safe keeping your sensitive contents such as cash, jewelry, Wills & Trusts, Deeds, Vehicle Titles, Birth certificates, medical records, Insurance & Travel documents, irreplaceable memories, etc. An essential gift that any home should have!

Note: For best results, use this fire-proof document holder in combination with a fire proof safe or a safety deposit box for better protection.
